## *PREFACE*

The Statistical Abstract of Andhra Pradesh for 1958 is the third publication of its kind since the reorganised State was formed. It is intended to serve as a convenient reference book presenting various types of quantitative data relating to the economic and social aspects of the State.

The screening Committee appointed by the Government of Andhra Pradesh, recommended that the number of pages of the Statistical Abstract 1958 be reduced to 300 in view of the shortage of paper. In order to confine the Abstract to 300 pages, the explanatory notes given in the previous issues for the years 1956 and 1957 have been deleted. These are the same for the present issue also and may be referred to, if necessary, from the previous issues of the Statistical Abstracts.

Further, to reduce the number of pages, certain tables of comparatively less importance have been omitted, but at the same time new tables on forests, judiciary etc., have been incorporated keeping in view the recommendations made by the 8th Joint Conference of Central and State Statisticians held at New Delhi in December 1959. It is hoped that the minimum set of tables recommended by this Conference will be incorporated in the Abstract of 1959 which will be issued shortly. As usual some All India Statistics have been included to facilitate the comparison of State data with the country as a whole. We hope the Abstract will prove useful not only to officials and scholars but also to the Public.

Our thanks are due to the various Government Departments in the State for their Co-operation. Comments and suggestions for the improvement of the Publication are welcome.
